

GAPPSCAN™ G2

Fast integrity testing for heat exchangers

Detect hidden defects before they impact production

 **BUILT TO WORK TOGETHER**

 **HEAT EXCHANGER**
Test the system in 3 minutes.

“ The fast, chemical-free way to test plate heat exchangers. ”

 **GAPPSCAN™ G2**
Detects internal leaks and microscopic defects quickly and accurately.

CHEMICAL-FREE
Uses only water

NO DISMANTLING
Test in-service

RAPID RESULTS
Complete test in ~3 minutes

PORTABLE
One-person operation

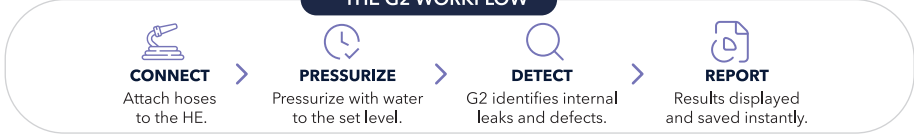

COMPLIANCE-READY
Digital reporting for audits

WHY GAPPSCAN™ G2?

-  **PREVENT CONTAMINATION**
Detect internal leaks and microscopic defects early.
-  **LOWER OPERATING COSTS**
Catch problems before repairs, waste, or recalls.
-  **PORTABLE & SIMPLE**
One-person operation with digital reporting.

-  **REDUCE DOWNTIME**
Test in-service with minimal disruption.
-  **IMPROVE SUSTAINABILITY**
Water-based testing-no chemicals required.
