CentriVet™ Glucose & Ketone Monitoring System for Cats, Dogs and Cows

The CentriVet monitoring system enables the monitoring of ketones and glucose in cats, dogs and cows. Ketone monitoring enables the identification of sub-clinical ketosis in dairy cows, to protect against economic losses caused by decreased milk production and further health complications. Glucose monitoring in cats and dogs is important for the management of pet diabetes. The CentriVet range includes glucose and ketone test strips with species-specific calibration chips for monitoring canine, feline and bovine blood to ensure accurate results. The test is rapid and easy-to-use, with results in seconds. Simply insert a test strip into the meter and add a spot of blood onto the strip to generate a reading.

Product Description	Pack Size
CentriVet Meter	n/a
Cat/Dog Glucose Test Strips	50T
Cat/Dog Ketone Test Strips	25T
Bovine Ketone Test Strips	25T
Bovine Glucose Test Strips	50T
Glucose Control Solution	2 x 2ml
Ketone Control Solution	2 x 2ml
28G Safety Lancets for Cats/Dogs	50
21G Safety Lancets for Cows	50

Veterinary Rapid Tests

Our veterinary rapid tests are a new addition to our portfolio and use the same lateral flow technology as our human diagnostic rapid tests. These offer affordable and easy-to-use testing in 5-15 minutes (depending on the test) - without the need for expensive equipment.

Product Description	Pack Size
Farm Animal Rapid Tests	
Bovine Brucella Antigen Test – whole blood/serum/plasma	10T
Bovine Foot and Mouth Disease Virus A Antibody Test – serum/plasma	10T
Bovine Tuberculosis Antibody Test – Serum/plasma	10T
Bovine Viral Diarrhoea Test – Serum/plasma	10T
Foot & Mouth Disease Virus O Antibody Test – serum/plasma	10T
Porcine Circovirus 2 Antibody Test – serum/plasma	10T
Porcine Foot & Mouth Disease Virus A Antibody Test – serum/plasma	10T
Porcine Pseudorabies gB Antibody Test – serum/plasma	10T
Porcine Pseudorabies gE Antibody Test – serum/plasma	10T
Porcine Reproductive and Respiratory Syndrome Antibody Test – Serum/plasma	10T
Swine Fever Test – Serum/plasma	10T
Swine Trichinellosis Antibody Test – Whole blood/serum/plasma	10T

Veterinary Diagnostics - Rapid Test

Product Description	Pack Size
Canine Rapid Tests	10T
Canine Adenovirus Type II Antigen Test – Ocular/Nasal secretions	10T
Canine Brucella LPS Test – Whole blood/serum/plasma	10T
Canine CCRP Test – Serum/plasma	10T
Canine Coronavirus Antigen Test – Faeces/vomit	10T
Canine Distemper Virus Antibody Test – Serum/plasma	10T
Canine Distemper Virus Antigen Test – Ocular/nasal secretions	10T
Canine Ehrlichia Antibody Test – Whole blood/serum/plasma	10T
Canine Heartworm Antigen Test – Whole blood/serum/plasma	10T
Canine Influenza Virus Antigen Test – Ocular/nasal secretions	10T
Canine Leishmania Antibody Test – whole blood/serum/plasma	10T
Canine Parvo + Coronavirus Antigen Test – Faeces/vomit	10T
Canine Parvovirus Antibody Test – Serum/plasma	10T
Canine Parvovirus Antigen Test	10T
Feline Rapid Tests	
Feline Coronavirus Antigen Test – Pleural fluid/Ascites	10T
Feline Calicivirus Antigen Test – Ocular/nasal secretions	10T
Feline Leukaemia Virus Antigen Test – Whole blood/serum/plasma	10T
FIV Ab + FeLV Ag Combined Test - Whole blood/serum/plasma	10T
Feline Infectious Peritonitis Antigen Test – Faeces/ascites	10T
Feline Immunodeficiency Virus Antibody Test – Whole blood/serum/plasma	10T
Feline Panleucopenia Virus Antigen Test – Faeces/serum	10T
Rapid Tests for Multiple Species	
Giardia Antigen Test - Faeces	10T
Hydatid Antibody (CE Ab) Test – Serum/plasma	10T
Toxoplasma Gondii Antigen Test (Canine/Feline) – Faeces/serum	10T
Toxoplasma IgG IgM Test (Canine/Feline) – Whole blood/serum/plasma	10T
